

## Reports

Practical Superconductor Development for Electrical Power Applications, Annual Report for FY 2000

U. Balachandran, Y. S. Cha, S. E. Dorris, J. T. Dusek, J. E. Emerson, B. L. Fisher, K. C. Goretta, K. E. Gray, J. R. Hull, Y. Jee, R. E. Koritrala, M. Lelovic, M. Li, J. W. Lucas, B. Ma, V. A. Maroni, R. L. McDaniel, D. J. Miller, J. J. Picciolo, and J. P. Singh

ANL-00/28 (December 2000)

Accelerated Calendar Life Testing

I. Bloom, D. Ingersoll, T. Unkelhaeuser, and C. Motloch

In *Advanced Technology Development, 1999 Annual Progress Report*, Energy Management Team, U.S. DOE, Office of Advanced Automotive Technologies, p. 18 (March 2000)

Secondary Uranium-Phase Paragenesis and Incorporation of Radionuclides into Secondary Phases

R. J. Finch

Yucca Mountain Analysis and Model Report (AMR), Yucca Mountain Project Report EBS-MD-000019 (February 2000)

EXAFS and XANES of Plutonium and Uranium Edges from Titanate Ceramics for Fissile Materials Disposition

J. Fortner, A. J. Kropf, R. J. Finch, M. C. Hash, S. B. Aase, and D. B. Chamberlain

Advanced Photon Source Final Report (2000)

Analytical Chemistry Laboratory Progress Report for FY 2000

D. W. Green, A. S. Boparai, D. L. Bowers, and D. G. Graczyk  
ANL/ACL-00/1 (December 2000)

Life Cycle Testing of High-Power 18650 Lithium-Ion Cells

D. Ingersoll, C. Motloch, V. S. Battaglia, I. Bloom, and H. Haskins

In *Advanced Technology Development, 1999 Annual Progress Report*, Energy Management Team, U.S. DOE, Office of Advanced Automotive Technologies, p. 21 (March 2000)

Effects of Fuel Constituents on Fuel Processor Catalysts

J. P. Kopasz, D. V. Applegate, L. Ruscic, and S. Ahmed

In *Advanced Automotive Fuels FY 2000 Progress Report*, Department of Energy (2000)

Proof-of-Concept Flowsheet Tests for Caustic-Side Solvent Extraction of Cesium from Tank Waste

R. A. Leonard, S. B. Aase, H. A. Arafat, C. Conner, J. R. Falkenberg, and G. F. Vandegrift

ANL-00/30 (November 2000)

Chemical Technology Division Annual Technical Report, 1999

D. Lewis, J. F. Miller, R. E. Einziger, E. C. Gay, and D. W. Green

ANL-00/15 (June 2000)

Development of a Method for Monitoring the Consistency of Glass-Bonded Sodalite Waste Forms

M. A. Lewis, M. L. Stanley, and W. L. Ebert

ANL-00/12 (May 2000)

Developing a Test Plan for the ATD Program

C. Motloch, I. Bloom, D. Ingersoll, and T. Unkelhaeuser

In *Advanced Technology Development, 1999 Annual Progress Report*, Energy Management Team, U.S. DOE, Office of Advanced Automotive Technologies, p. 12 (March 2000)

Alternative Water-Gas Shift Catalyst Development

D. J. Myers, J. Krebs, T. R. Krause, and M. Krumpelt

In *FY 2000 Progress Report for Transportation Fuel Cell Power Systems*, Department of Energy Report, pp. 70–74 (2000)

From Test Tube to Pilot Plant: A 50 Year History of the Chemical Technology Division at Argonne National Laboratory

R. K. Steunenberg and L. Burris

ANL-00/16 (August 2000)

Transformation of UREX Effluents to Solid Oxides by Concentration, Denitration, and Calcination

G. F. Vandegrift

ANL-00/25 (December 2000)
